

AWNING WINDOW

A brilliantly functional design, awning windows are hinged at the top and open outward from the bottom. They're an ideal choice to use on their own or can also complement fixed windows.

Features

- Slimline, strong, 48mm aluminium frame
- Key Lock Chain Winder mechanism designed specifically for high performance, security and reliability and stops the window slamming unexpectedly
- Stainless steel chain standard for long life and reliability.
- Weather protection: Continuous hinge hood
- Tubular splayed sash with self-draining trough (Splayed sash not available on double-glazed windows)
- Sash Corner Protection. Bottom rail sash corners protected by custom nylon covers
- Xtreme rating up to to BAL-40 (Bushfire Attack Level 40)
