

# 400/25 SERIES DOOR FRAME

Our 400/25 series door frame can accommodate both pivot and hinged door leaf's. If using a glass door leaf that is over 1020 wide the only operable option is pivot.

- Suit 46mm thick door leaf
- 200mm incremental pivot point set
- 101.6mm x 44mm centre glazed framing system
- Flexible design with wide range of mullion and transom options
- Sub-frame options
- Supports single and double glazing
- Rated up to BAL-40 (Bushfire Attack Level 40)
- Pivot doors do not meet AS2047 water penetration and it is the purchaser/builder responsibility to provide alternative solution
